Lithuania Large Energy Storage Project

Overview

Trina Storage, the battery energy storage system (BESS) division of solar energy firm Trinasolar, has announced the deployment of three new battery storage projects in Lithuania, totalling 90 MW/180 MWh. How will Lithuania support energy storage projects?

Image: Energy Cells via LinkedIn. Lithuania can move ahead with a scheme to provide €180 million (US\$200 million) in grants to energy storage projects after it was approved by the EU. The programme will provide direct grants for the construction of the projects, with a target to support at least 1.2GWh of energy storage projects.

Will EU grant a battery storage project in Lithuania?

What is Lithuania's first commercial battery storage facility?

Located near Vilnius, this project will be the country's first commercial battery storage facility and is expected to increase Lithuania's total storage capacity by approximately 50%. The system is scheduled to begin operations by the end of 2025.

What is E-Energija project?

E-energija Group has started building Lithuania's largest battery energy storage system (BESS), known as the Vilnius BESS, with a capacity of 120MWh. Located near Vilnius, this project will be the country's first commercial battery storage facility and is expected to increase Lithuania's total storage capacity by approximately 50%.

How much is energy storage in Poland?

The EU recently approved €1.2 billion for energy storage Poland under the TCTF, as covered by Energy-Storage.news, and in mid-2023 approved amounts under the TCTF in Hungary and Slovenia. Panelists at this year's Energy Storage Summit Central and Eastern Europe (CEE) in September described Hungary's scheme as one of the most advanced in the world.

What is the energy storage grant programme?

The programme will provide direct grants for the construction of the projects, with a target to support at least 1.2GWh of energy storage projects. The grants will cover a maximum of 30% of the projects' capital expenditure costs.

Lithuania Large Energy Storage Project

Lithuania Announces EUR102M Funding for Energy Storage ...

Feb 10, 2025 · The initiative seeks to install at least 800 MWh of storage capacity by the end of 2028, with systems either directly connected to the grid or integrated with power plants linked ...

Lithuania Expands Energy Storage Grant Scheme by EUR37 ...

Jul 24, 2025 · Lithuania's Ministries of Energy and the Environment have jointly approved an additional EUR37 million in funding to expand the country's capital expenditure (capex) support for ...
