# **Luanda New Energy Manufacturing Energy Storage Project**

## Overview

---

Will Angola establish a PV module industry in a few years?

According to the statement of Sonangol, the memorandum of understanding signed by Gaspar Martins, chairman of the board of Sonangol, and Wang Fu, executive director of Qinghai Lihao Clean Energy, “paves the way for Angola to establish a PV module industry within a few years.”.

Could a lihao deal help establish a PV module industry in Angola?

Lihao chairman of the board Wang Fu said the deal could help establish a PV module industry in Angola “within a few years”. Image: Lihao Clean Energy.

Will a polysilicon plant be built in Angola?

Image: Lihao Clean Energy. Last week, the National Petroleum Company of Angola (Sonangol) and Chinese firm Qinghai Lihao Clean Energy signed a memorandum of understanding to build a polysilicon plant, which will eventually produce PV modules made of quartz ore, in Angola.

How will PV Manufacturing be mapped out to 2030?

The goal is simple: to map out PV manufacturing out to 2030 and beyond. Sonangol and Qinghai Lihao Clean Energy plan to build a polysilicon plant, which will produce PV modules made of quartz ore, in Angola.

What is the future of solar energy in 2023?

As of 2023, clean energy accounted for 63% of the country’s energy mix. However, hydro and marine power accounted for 91% of this installed capacity, with solar making up just 8% of the operating capacity, so there is considerable potential for growth in the solar sector.
