

SolarInnovate Energy Solutions

Managua outdoor power supply BESS 24 hours door-to-door service

50KW modular power converter

Flexible Configuration

- Modular Design, Expanding as Required
- Small&Light, Wall Mounted
- Installed in Parallel for Expansion

Powerful Function

- Support PV+ESS
- Grid Support, Equipped with SVG Technology
- On-Grid and Off-Grid Operation

Reliable Protection

- Outdoor IP65 Design
- Sufficient Protection Functions Equipped

Overview

What is a Bess battery?

The small BESS series is a fully integrated battery energy storage system that's built to last. The Series is both scalable and engineered for modularity with a low MTTR, making it ideal for medium renewable energy projects. It offers flexible and scalable designs for various applications, whether you need a small or medium energy storage solution.

Why should you choose a Bess energy storage system?

It offers flexible and scalable designs for various applications, whether you need a small or medium energy storage solution. Our BESS is modular, which means you can mix and match cabinets to suit your system requirements. Plus, it comes in two variants, AC Single Bay and AC Dual Bay.

How does Bess home energy storage battery work?

BESS Home Energy Storage Battery integrates seamlessly with our smart home technology. Through the BESS app, we can monitor our energy usage in real-time and make adjustments to optimize our consumption. We also receive alerts about our energy levels and battery status, so we're always in control.

Who is Bess technology?

BESS Technology is an innovative company that focuses on lithium battery technology with new energy. We integrate R&D, design and production and offer R&D and production guarantees for the entire process of BMS/EMS, pack design, electrical system design to end products.

What is a Bess power amplifier?

BESS functions as a "Power Amplifier" at construction sites when it is continuously charged, converting a small portion of temporary power supply to provide high output current for equipment with high instantaneous current requirements. BESS is best suited for following equipment with intermittent

loads but high current requirements.

What makes Bess products unique?

Each of our BESS products is designed to be modular, scalable, and fully integrated, with a low Mean Time to Repair (MTTR) for medium to large-scale projects. They're made with readily accessible components, N+1 redundancy, and hot-swappable products, ensuring easy onsite servicing and maintenance.
