# **Nigeria Uninterruptible Power Supply**

## Overview

---

What is an uninterruptible power supply (UPS)?

An uninterruptible power supply (UPS), with a 1kVA/600W capacity and line interactive design, provides battery backup for computers, servers, and office networks. It has a 220V/120V AC output voltage and is brand new, high quality, and inexpensive.

What is erratic power supply in Nigeria?

Erratic power supply in Nigeria is a long-standing issue, not a recent development. It can be traced back to the years before independence, particularly in 1950, with the establishment of the Electricity Corporation of Nigeria (ECN). The corporation was characterized by isolated generation facilities and low power generation.

Why does Nigeria have a poor power supply?

Another consumer of IBEDC, Tito Adebajo, a medical doctor, the poor power supply was worsened by the adulterated fuel situation, which led to fuel scarcity across Nigeria. He said, "It is time for the Nigerian government to think out of the box and proffer a lasting solution. We have been cheated here over time.

What is a ups power supply & how does it work?

Our UPS power supply provides protection from power surges, load shedding and unpredictable weather conditions. Uninterruptible Power Supply (UPS) ensures its internal battery gets constantly charged from the main electrical grid supply and delivers a steady, consistent electricity flow to any equipment or appliance plugged into it.

Where can I buy ups in Nigeria?

At Penz Nigeria Limited you can buy UPS units that range in size from units designed to protect a single computer without a video monitor (around 200

volt-ampere rating) to large units powering entire data centers or buildings.
