# **Norway communications industry base station**

## Overview

---

Will Norway join the EU's secure communications projects?

Norwegian Industry Minister Cecilie Myrseth, responsible for space policy, discussed Oslo's ambitions to join the EU's secure communications projects in an interview with Euractiv on the sidelines of her visit to Brussels. As a member of the European Economic Area, Norway participates in the EU's single market, without being an EU member.

Is Norway a member of the European Economic Area?

As a member of the European Economic Area, Norway participates in the EU's single market, without being an EU member. The EU Council of Ministers authorised the Commission to begin negotiations with Norway on joining the EU's space governments pooling of satellites capacities and the €10.6 billion secure communications project IRIS2.

Why should Norway join the space industry?

As the space industry expands, our goal is to strengthen integration, much like in many other Norway-EU industries. As defence and space are closely linked together, joining forces will benefit Norway and Europe. It's important for us to be a fully integrated member when it comes to these issues.

Will Norway join the EU's space government?

The EU Council of Ministers authorised the Commission to begin negotiations with Norway on joining the EU's space governments pooling of satellites capacities and the €10.6 billion secure communications project IRIS2. Negotiations kick-started on 13 March when she met with EU space chief Andrius Kubilius in Brussels.
