

## SolarInnovate Energy Solutions

# One million energy storage batteries

**Deye Official Store**

**10** years  
warranty

## Overview

---

How much did Tesla invest in the Shanghai megafactory?

The new plant was planned following an investment of \$201.76 million. Tom Zhu, Tesla's Senior Vice President, highlighted that the Shanghai Megafactory is Tesla's first energy storage facility outside the United States and marks another milestone investment in China over the past decade.

What is the future of energy storage?

The mass production of these units is expected to start next year with an initial output of 10,000 units annually, equal to around 40 GWh of energy storage. The future of renewable energy relies on large-scale energy storage. The Shanghai Megafactory, Tesla's first energy storage facility outside the US, covers approximately 200,000 square meters.

How much energy can a Tesla Megapack store?

Each unit can store over 3.9 MWh of energy—that's enough energy to power an average of 3,600 homes for one hour. Each Megapack unit is shipped fully assembled and ready for operation, streamlining installation and minimizing complexity. The systems require minimal maintenance and come with warranties of up to 20 years, according to Tesla.

How much energy does a Megapack store?

Megapack stores energy for the grid reliably and safely, eliminating the need for gas peaker plants and helping to avoid outages. Each unit can store over 3.9 MWh of energy—that's enough energy to power an average of 3,600 homes for one hour.
