

## SolarInnovate Energy Solutions

# Outdoor solar power supply with on-site energy

## Overview

---

How can on-site solar PV & energy storage improve sustainability?

To achieve sustainability goals while meeting the increasing electricity demands of electrification, organizations are pairing on-site solar PV generation with on-site energy storage. These systems, which are considered as “behind-the-meter” (BTM) systems, allow facilities to maximize the benefits of on-site renewable generation.

Do outdoor energy storage systems need a lot of maintenance?

**Low Maintenance Requirements:** Outdoor energy storage solutions require low maintenance to ensure their longevity and performance. Cloudenergy's energy storage systems are engineered with this in mind, featuring advanced technology and durable construction that minimize the need for frequent maintenance.

Are cloudenergy energy storage systems good for outdoor installations?

Designed to withstand various environmental conditions, Cloudenergy's energy storage systems offer exceptional benefits for outdoor installations. In this article, we will explore the unparalleled advantages of Cloudenergy's outdoor energy storage solutions. **Robust Construction and Weather Resistance:**

Can on-site storage be used alongside solar PV?

If a utility restricts the exports from a facility to the grid, the use of on-site storage alongside solar PV can provide a solution to avoid costly infrastructure upgrades, thus increasing the feasibility of larger on-site PV installations.

What are the benefits of an on-site solar PV system?

For the scenario represented in the graph, an on-site solar PV system allows the facility to reduce the amount of electricity drawn from the grid during the middle of the day. Increasing the amount of solar PV production on-site can

provide additional cost and emission reductions and resiliency benefits for facilities.

Are cloudenergy energy storage solutions scalable?

Cloudenergy's energy storage solutions are designed with scalability in mind, making them suitable for large-scale outdoor projects.
