Outdoor wind power base station manufacturers ranking

Overview

Which wind turbine manufacturers dominated the global wind turbine market in 2024?

Wood Mackenzie's latest report on global wind turbine original equipment manufacturers (OEMs) reveals that Chinese companies dominated the market in 2024, with Goldwind, Envision, and MingYang securing the top three positions globally for the first time. Key findings:.

Who makes the best offshore wind turbines?

In offshore wind, Siemens Gamesa reclaimed its title as the top turbine supplier, surpassing Vestas and its Chinese peers for the first time since 2020. The Europe-based manufacturer provided machines for almost three-quarters of offshore wind farms outside of mainland China last year.

Who is the world's biggest wind turbine supplier?

Goldwind continued to lead the ranking as the world's biggest wind turbine supplier, with 19.3GW of new wind capacity added in 2024. Envision retained second place with 14.5GW. Windey was third with 12.5GW, and Mingyang ranked fourth, adding 12.2GW. The Danish manufacturer Vestas was the last of the five suppliers that hit the 10GW mark in 2024.

Who is the world's largest wind turbine supplier in 2023?

Goldwind emerged as the top supplier, with Envision moving up three positions to second place, and Denmark's Vestas securing third place. Windey and Mingyang took fourth and fifth positions, respectively, with Mingyang becoming the world's largest offshore wind turbine supplier in 2023. Sany and Dongfang also featured in the top 10.

Which OEM has the most wind power?

Vestas Wind Systems A/S (CPH:VWS) was the only western OEM in the top five, ranking third with 11.5 GW connected. Envision secured the second place

with 14.1 GW, while Windey and MingYang were at fourth and fifth positions with 10.1 GW and 9.9 GW, respectively.

Is Vestas a good wind turbine manufacturer?

Vestas remains in No. 1 place for the fifth year running, despite strong surge in orders for GE and Chinese manufacturers. GWEC Market Intelligence today released the preliminary rankings for the world's top five wind turbine original equipment manufacturers ("OEMs").
