Papua New Guinea imports energy storage batteries

**Low Voltage
Lithium Battery**

6000+ Cycle Life

Overview

What is Gelion doing in Papua New Guinea?

Gelion, an Australian zinc-bromide battery tech specialist, has agreed to deliver 100 MWh of energy storage to Mayur Renewables for clean energy projects in Papua New Guinea under a new deal. Gelion Technologies has announced a new partnership with Mayur Renewables, which aims to develop a renewable energy portfolio in Papua New Guinea.

What is Gelion's new partnership with Mayur renewables?

Gelion Technologies has announced a new partnership with Mayur Renewables, which aims to develop a renewable energy portfolio in Papua New Guinea. The newly signed memorandum of understanding (MoU) will see Gelion supply Mayur Renewables, a division of Sydney-listed Mayur Resources, with its zinc-bromide Endure batteries.

Is Gelion a safer alternative to lithium-based battery chemistries?

Gelion is marketing itself as a safer alternative to lithium-based battery chemistries. It wants to bring the Endure batteries into the market at a remarkably competitive \$100 per kWh. It says its novel manufacturing approach and highly engineered design have allowed it to provide such a low-cost offering. "Only 13% of PNG is electrified.
