# Paris Energy Storage Container Production Plant Address

## Overview

---

Where is the largest battery-based energy storage facility in France?

Paris, December 21st, 2021 – TotalEnergies has launched the largest battery-based energy storage facility in France. Located at the Flandres center in Dunkirk, this site, which responds to the need for grid stabilization, has a power capacity of 61 MW and a total storage capacity of 61 megawatt hours (MWh).

Where will totalenergies deploy its energy storage solutions?

"With the success of this project and Saft's expertise in batteries for energy storage, TotalEnergies intends to deploy its storage solutions in countries where the Company is actively developing renewable energies".

Where is the first battery energy storage solution being built?

The first Q ENERGY battery energy storage solution is currently being built as a stand-alone solution on the site of the Emile Huchet power plant in north-eastern France. The project is part of a comprehensive green transformation of the previously fossil-fuelled power plant by its owner GazelEnergie.

What is gazelenergie's new energy storage project?

The project is part of a comprehensive green transformation of the previously fossil-fuelled power plant by its owner GazelEnergie. With a size of 35 MW and a capacity of 44 MWh, this energy storage solution is poised to revolutionize the region's power dynamics.
