# Paris Solar System

**LPW48V100H**  
**48.0V or 51.2V**

## Overview

---

### What is Paris Observatory?

Paris Observatory produces French legal time, ephemerides of the Sun, Moon and solar system bodies, and operates state-of-the-art radio telescopes at Nançay. It offers academic training (Masters, PhD), training for the general public and teachers, and class sponsorship. It is a founding member of the Université Paris Sciences et Lettres.

### What is Observatoire de Paris-PSL?

Observatoire de Paris-PSL is a unique research establishment, in terms of its history, reputation and diversity of research fields, as well as its ability to initiate innovative, multidisciplinary research. The establishment is home to around a quarter of France's total workforce in astronomy and astrophysics.

### What does Observatoire de Paris - PSL do?

Sharing knowledge. Observatoire de Paris - PSL is a public institution responsible for fundamental and applied research, higher education and the sharing of knowledge in disciplines related to the sciences of the Universe, astronomy and time metrology.

### How can Université Paris Cité become a Space Centre?

By consolidating the leadership of space laboratories in their field of excellence, by promoting multidisciplinary within the University in the field of space and by enriching the instructional offer, the Université Paris Cité will be able to consolidate its position among future university space centres.
