

**SolarInnovate Energy Solutions**

# **Photovoltaic cell module customs declaration**

## Overview

---

What is customs duty on solar panels?

According to TARIC, customs duty for photosensitive semiconductor devices, including photovoltaic cells whether or not assembled in modules or made up into panels; light-emitting diodes, code 8541409000, is 0%. In the HTS tariff system, the duty for solar cells assembled into modules or made up into panels (code 8541.40.60.15) is also 0%.

Can a photovoltaic cell be used for an export declaration?

Can be used for an export declaration. Photovoltaic cells assembled in modules or made up into panels; Examples: - Photovoltaic cells assembled in modules (10 kg, 1.5 m x 1 m) - .

How to import photovoltaic panels?

If you want to import photovoltaic panels, you should have at least basic parameters of the goods specified. Based on your requirements, the supplier will be able to suggest you the most suitable product. The country that ranked first in the production of photovoltaic panels in the world is China.

Do solar panels need customs clearance in China?

Imported solar panels require customs clearance in China and the destination country. Familiarize yourself with your country's customs regulations and tariffs to avoid any unexpected delays or fees. Prepare all necessary documents including invoices, packing lists and certificates of origin.

Do photovoltaic panels have CE marking?

Photovoltaic panels are listed under code 20: "Structural Metallic Products and Ancillaries" in Annex IV. The regulation states that products such as solar panels should have CE marking. It means that the declaration of conformity is also required.

What is the duty on solar panels?

In the HTS tariff system, the duty for solar cells assembled into modules or made up into panels (code 8541.40.60.15) is also 0%. Such an attractive duty makes it profitable to import photovoltaic modules to both the European Union and the United States.
