

SolarInnovate Energy Solutions

Photovoltaic folding container wholesale in Sydney Australia

Overview

Can solar power a shipping container?

We design and build shipping containers featuring integrated solar systems that can be used to provide microgrid energy solutions. The solar array is mounted directly onto the container, and can provide both off-grid and grid-tied functionality, with all necessary equipment to ensure safe and efficient operation installed within.

How do solar containers work?

The panels on our solar containers automatically align with the sun so that they are always producing the highest possible amounts of energy, and can be remotely monitored at all times. Simple to install with no foundations needed, our solar containers feature pre-wired outlets and can provide a turnkey solution.

Where can I buy solar panels online?

Try Solar Outlet! We are the largest online distributor for solar panels, inverters, batteries and complete kits. Solar Outlet supplies leading brand products with a hassle-free easy online ordering system. We have warehouses in Sydney, Brisbane, Melbourne, Adelaide, Perth and Townsville.
