

SolarInnovate Energy Solutions

Photovoltaic glass factory in Hanoi

Overview

Who makes glass for solar panels?

One of the planet's foremost glassmakers, NSG produces glass for solar panels that capitalizes on its thin-film formation technology. The Group's global operations include wholly owned subsidiary NSG Vietnam Glass Industries (VGI), whose factory is devoted to the manufacture of glass for solar panels.

What is Vietnam float glass?

Anticipating Vietnam's economic growth and with an eye to satisfying rising demand in the domestic architectural market, NSG established Vietnam Float Glass (VFG) near Hanoi in the north of Vietnam in 1995 and VGI near Ho Chi Minh City in the south in 1997. Meanwhile, demand for photovoltaic power generation soared worldwide.

Who is first solar Vietnam?

Our workforce in Vietnam has grown to more than 1,200 associates who are leading the way in the development of solar module design and production. First Solar Vietnam is committed to producing the industry's best thin film PV modules while maintaining a safe and secure environment for our associates.

Is NSG a subsidiary of Nippon Sheet Glass?

NSG Vietnam Glass Industries is a wholly owned subsidiary of Nippon Sheet Glass. The sheet of glass on the cutting line is about 4 meters in length (above). VGI is in an industrial zone in Ba Ria-Vung Tau Province, southeast of Ho Chi Minh City, Vietnam's largest city. Many Japanese companies have factories here (left).

Where is VGI located?

VGI is in an industrial zone in Ba Ria-Vung Tau Province, southeast of Ho Chi Minh City, Vietnam's largest city. Many Japanese companies have factories here (left). As countries around the world set about decarbonizing their

economies by embracing renewable energy, they are increasingly turning to photovoltaic power generation.
