

SolarInnovate Energy Solutions

Photovoltaic panel installation manufacturer in Nairobi

Overview

Why should you install a commercial solar PV system in Kenya?

You can put your feet up and count your energy savings! Installing a commercial solar PV system in Kenya is a great way of reducing your energy bills by using the free electricity you are generating. For business solar system installations we aim to design a system which will cover your annual daytime electricity consumption.

Why should you choose a solar panel system in Kenya?

With the increasing cost of electricity from and the rising fuel prices, Solar power is a great option that could help you keep your costs down by lowering your electricity bill especially when the solar panel system in Kenya is coupled with a solar battery backup system. Give us call on +254 715 020605 to discuss what you require.

Who is Go Solar Ltd?

Go Solar Ltd is a leading Kenyan solar company with over 3000 successful residential and commercial installations since 2003. Whether your requirements are for residential or commercial solar systems, grid-tied or totally off grid, Go Solar Ltd guarantees you a top class solar power system that will perform well for decades to come.

What is solar water pumping in Kenya?

Solar water pumps in Kenya are typically used in domestic water supply, agricultural applications, irrigation projects and for pumping water from reservoirs & boreholes. Solar water pumping can be done by either surface solar pumps or submersible solar pumps- depending on the depth of water source.

How does solar energy work in Kenya?

Power cuts are a part of life in Kenya, and you have to schedule everything

around the possibility of a power outage. With solar energy, there are no more power cuts. The sun is always shining. And when it is not, alternate back-ups are available. Work never comes to a stop. And neither does the consumption of electricity.

How does a solar water heater work in Kenya?

Grid-tie systems connect to the public utility grid. Your panels feed electricity into the grid, and the Kenya power pays you for the power you generate. Solar Water Heater saves you 70 percent on your annual hot water bills. We supply and install solar water heaters in Kenya.
