

SolarInnovate Energy Solutions

Portable energy storage power supply warranty period

Overview

What is the Sungrow ESS warranty?

1.1 This warranty is effective for the Sungrow ESS (Energy storage systems), including its peripheral devices (PCS, BCP, Batteries, HVAC, EMS, etc.), hereinafter referred to as the “Products”. 1.2 Depending on your location, the warranty may be performed out by Sungrow’s regional affiliates.

How important is a battery warranty?

The underlying battery chemistry and construction also greatly affect design, controls, and reliability. The value of a warranty will often be something the utility, operator, or investor needs to evaluate.

When is the warranty transferable?

5.1 The warranty is transferable when the Products remains installed in its original location. This means, when the ownership of the Products has changed, the new owner shall continue to benefit under this warranty. Further, a lessee or assignee may obtain consent from the owner of the Products and make a claim under this warranty.

What is the difference between performance warranty and product warranty?

Reimbursements for performance guarantee and product warranty are mutually exclusive. For example, a battery defect that had caused the capacity to fall to zero shall be considered as under product warranty and not under performance warranty.

When did energy storage go beyond 1GW?

Consequently, in 2020 U.S. installations of advanced energy storage went beyond the 1Gw mark for the first time in history when 1,464MW/3,487MWh of new energy storage (composed almost entirely of lithium-ion battery systems) went online.

What is Sungrow warranty?

2.1 Sungrow warrants that the Products are free from defects in material and workmanship for the standard warranty period set out in Schedule A. Warranty Commencement Date. 2.4 Where applicable, extended warranty must be purchased along with the purchase of the Product.
