# Pristina Ground Solar System Application

## Overview

---

Will Termokos build a solar thermal plant in Prishtina?

Termokos is receiving applications until the end of this month from potential contractors, for the first lot. It envisages the construction of a 30 MW solar thermal plant near the village of Shkabaj (Orlović). The facility in Obiliq (Obilić) municipality is for the district heating system in Prishtina.

How long does it take to build a solar thermal system in Kosovo?

The estimated time for completion is 30 months plus a six-month commissioning phase. After several years of preparation, Kosovo\* is moving ahead with the largest solar thermal project for district heating in the Western Balkans. The operator, Termokos, is owned by the Municipality of Prishtina, the capital city.

How do I request a pre-qualification document for solar4kosovo 2 – solar district heating?

The other part of the Solar4Kosovo 2 – Solar District Heating project is for a network extension with 20 MW more heat from a coal-fired power plant. Pre-qualification documents can be requested from the tender agent via email at [s4k\\_lot1@ic-group.org](mailto:s4k_lot1@ic-group.org).
