Promote the construction of new energy storage

Overview

What is the implementation plan for the development of new energy storage?

In January 2022, the National Development and Reform Commission and the National Energy Administration jointly issued the Implementation Plan for the Development of New Energy Storage during the 14th Five-Year Plan Period, emphasizing the fundamental role of new energy storage technologies in a new power system.

What is the 'guidance on accelerating the development of new energy storage?

Since April 21, 2021, the National Development and Reform Commission and the National Energy Administration have issued the 'Guidance on Accelerating the Development of New Energy Storage (Draft for Solicitation of Comments)' (referred to as the 'Guidance'), which has given rise to the energy storage industry and even the energy industry.

Will energy storage eliminate industrial development?

In the context of the 'dual-carbon' goal and energy transition, the energy storage industry's leapfrog development is the general trend and demand. The follow-up actions will inevitably introduce a series of policies for the development of energy storage to eliminate industrial development. Faced with 'obstacles' one by one.

Why are energy storage technologies important?

They are also strategically important for international competition. KPMG China and the Electric Transportation & Energy Storage Association of the China Electricity Council ('CEC') released the New Energy Storage Technologies Empower Energy Transition report at the 2023 China International Energy Storage Conference.

What is the 'quidance' for the energy storage industry?

Based on the above analysis, as the first comprehensive policy document for the energy storage industry during the '14th Five-Year Plan' period, the 'Guidance' provided reassurance for the development of the industry.

What are the application scenarios for energy storage systems?

There is an extensive range of application scenarios for industrial and commercial energy storage systems, including industrial parks, data centers, communication base stations, government buildings, shopping malls and hospitals.

Promote the construction of new energy storage

Full text forwarding of the Implementation Plan for the ...

Jun 19, 2025 · Overall planning, tailored to local conditions. Strengthen top-level design, highlight the leading role of science, strengthen the connection with energy related planning, and ...

State Council Executive Meeting: Actively Promote the Construction ...

Nov 11, 2021 · Fifth, we must accelerate the construction of large-scale wind power and photovoltaic bases in the Gobi desert area, and accelerate the construction of emergency ...

SCIO briefing on promoting high-quality development: National Energy

Jul 25, 2024 · We will proactively plan and strengthen top-level design, promote the scientific and efficient allocation of new energy storage in new energy bases, and promote the highquality ...

Guiding Opinions on Accelerating the Development of New Energy Storage

Jun 23, 2022 · On 15 July, national plans for energy storage were set out by the Chinese National Development and Reform Commission and National Energy Administration. The main goals of ...

Interpretation on Several Policies and Measures of Beijing ...

Oct 25, 2024 · I. Purpose To capitalize on an opportunity for industrial development, integrate resourcerelevant advantages, promote innovation in new energy storage technologies and ...

New Energy Storage: A Key Starting Point for Accelerating

. . .

Nov 6, 2024 · Accelerating the planning and construction of a new energy system is an important condition and foundation for promoting Chinese path to modernization. The development of ...

Impact of China's market-

oriented reform on the energy storage ...

Apr 7, 2025 · In this article, we explore the impact of this new policy on China's energy storage sector from the perspectives of policy adjustments and market mechanisms. The Notice ...

China to boost new-energy storage manufacturing industry, ...

Feb 18, 2025 · The plan will also accelerate the construction of smart factories in relevant industries. It will promote the digital transformation of key processes in new-energy storage ...

China's Largest Grid-Forming Energy Storage Station ...

Apr 9, 2024 · It is a strong measure taken by Ningxia Power to implement the "Four Revolutions and One Cooperation" new strategy for energy security, promote the integration of source-grid ...

NDRC and NEA Issued The Notice on Promoting The Participation of New

Jul 19, 2022 · On June 7, the National Development and Reform Commission (NDRC) and the National Energy Administration (NEA) issued the Notice on Promoting the Participation of New ...

New energy storage to see large-scale development by 2025

Mar 2, 2022 · China aims to further develop its new energy storage capacity, which is expected to advance from the initial stage of commercialization to large-scale development by 2025, with

...
