# Purchase lithium battery packs in Rotterdam the Netherlands

## Overview

---

What is SK TES' new battery recycling facility in Rotterdam?

International battery recycling company SK tes is opening a new battery recycling facility in the Rotterdam port area. This facility recycles spent lithium batteries, electric vehicle batteries and battery production scrap to recover crucial raw materials.

Where are EV batteries recycled?

Waste EV batteries and recalled batteries will be safely processed at the SK Tes battery recycling facility in Rotterdam. As a part of the battery recycling process, SK Tes extracts black mass—an intermediate product containing rare metals such as lithium, cobalt, and nickel—that is fed back into the battery supply chain.

What is the demand for lithium ion batteries in the EU?

According to McKinsey (2023), demand for lithium-ion batteries in the EU will reach 1.1 TWh in 2030, accounting for about 23.4% of global demand. Supply is projected at 1.25 TWh, or 19% of global supply. Notably, Germany has seen investments in new battery production facilities totaling 552 GWh.

Does Germany have a new battery production facility?

Notably, Germany has seen investments in new battery production facilities totaling 552 GWh. SK Tes will provide end-of-life battery management solutions using the Rotterdam battery recycling facility as its strategic base. It also plans to expand capabilities in Southern and Eastern Europe.

Who is Duex Netherlands EV grade lithium ion cells trader?

DUEX Netherlands is EV grade lithium ion cells trader in Europe. We trade Spot cells in Europe market. Cells are highly competitive due to limited quantity. Our focus is 43Ah pouch NMC Lithium Ion Cells for Electric Vehicles (SK Innovation , EVE and Catl).

How big is Germany's battery supply?

Supply is projected at 1.25 TWh, or 19% of global supply. Notably, Germany has seen investments in new battery production facilities totaling 552 GWh. SK Tes will provide end-of-life battery management solutions using the Rotterdam battery recycling facility as its strategic base.
