

**SolarInnovate Energy Solutions**

# **Pyongyang Energy Storage Battery Customization Factory**

## Overview

---

What is BYD PV+storage?

BYD has developed PV+Storage, a new business model focused on renewable energy production, storage and applications, designed to change the world by leveraging new energy solutions. BYD is the world's leading producer of rechargeable batteries: NiMH batteries, Lithium-ion batteries and NCM batteries.

Who makes BYD batteries?

BYD is the world's leading producer of rechargeable batteries: NiMH batteries, Lithium-ion batteries and NCM batteries. BYD owns the complete supply chain layout from mineral battery cells to battery packs. These batteries have a wide variety of uses including consumer electronics, new energy vehicles and energy storage.

What is BYD energy storage system?

BYD Energy Storage System (ESS) technology offers a modular, flexible design and can be easily customized to meet diverse customer needs. Up to now, BYD has a lot of successful cases of ESS solutions from kW sized to GW sized systems at home and abroad.
