Qudi new photovoltaic panels selling price

Overview

Why are solar panels so expensive in India?

India: Slight price increases for DCR-compliant modules, driven by government-backed solar PV projects and higher costs for some BOM affected by anti-dumping duties. However, prices for imported modules have declined slightly due to oversupply. United States: FOB prices have remained stable for now.

How much does a PV module cost in China?

According to price analysis firm InfoLink: "Since March, the spot price of n-type modules in China has soared from RMB0.7/W to RMB0.73/W. Quotes from leading manufacturers are approaching the RMB0.75/W mark." The results of the China Datang Group's 2025-2026 PV module framework. Image: Datang.

How much will PV modules cost in 2025?
