

SolarInnovate Energy Solutions

Rechargeable portable multi-voltage output power supply

50KW modular power converter

Flexible Configuration

- Modular Design, Expanding as Required
- Small&Light, Wall Mounted
- Installed in Parallel for Expansion

Powerful Function

- Support PV+ESS
- Grid Support, Equipped with SVG Technology
- On-Grid and Off-Grid Operation

Reliable Protection

- Outdoor IP65 Design
- Sufficient Protection Functions Equipped

Overview

Can a portable power station be used as an uninterruptible power supply?

Yes, a portable power station can be used as an uninterruptible power supply. Many portable power stations come with UPS features, like automatic switchover when power loss is detected.

How to charge a 88wh portable power station?

TWO RECHARGING MODES: 88Wh portable rechargeable power station with two methods to charge the portable power station. On the wall, you can fully charge the power supply via AC outlet (adapter included) with 5 hours. Or it can be charged under the sun with a MARBERO solar panel (15V-24V, 1.2A) (not included).

How many ports does a portable power station have?

You'll find five ports here - a single AC socket, two USB-A and one USB-C ports, and a car outlet. The trade-off for getting a budget portable power station comes from the lower battery capacity, which sits at just 256Wh.

What is a stand-alone PC power supply?
