# Rwanda office building energy storage system

## Overview

---

What is Rwanda green building minimum compliance system?

The Government of Rwanda in the cabinet meeting held on 3rd April 2019 approved the Ministerial Order determining Urban planning and Building regulations. The Rwanda Green Building Minimum Compliance System is an Annex to the Ministerial Order along with the revised Rwanda Building Code.

How much energy is used in buildings in Africa?

In Africa, energy used in buildings is an estimated 56% of the total national electricity consumption. Over 70% of this energy is consumed in cities. In some cases, more than 50% of the national energy is used in the capital city aloneii.

What is 'green growth' in Rwanda?

This paradigm shift in the model of development is defined as 'green growth' as reflected in Rwanda's Green Growth and Climate Resilient Strategy, 2011 and the National Roadmap for Green Secondary City Development, 2015. Building and Construction is considered as one of the key pillars of green urbanization of the National Roadmap.
