San Jose energy storage solar panels

Overview

Should you go solar in San José?

By choosing a solar energy system with a battery back-up, many residents in San José have become entirely immune to the shut-offs. What's even better, going solar in San Jose has financial benefits: you can maintain normal business operations during a blackout, and greatly reduce (or even eliminate) your electric bill.

Who is the best solar company in San Jose?

Here are the top companies we recommend for solar in San Jose: Hooked On Solar is a family-owned business founded by a father and son with over 40 years of experience, a shared passion for sustainable energy and a commitment to quality service. With deep roots in California, we have proudly completed over 10,000 solar i.

How much does solar cost in San Jose?

The cost per watt makes it easier to compare prices between quotes and gives you a better idea of how fairly the system is priced. The average price of solar is about \$2.14 to \$3.22 per watt in San Jose, so anything in that range is a fair price.
