

## SolarInnovate Energy Solutions

# Sloped roof solar tiles

## Overview

---

### What is a Solar Tiled Roof?

A Solar Tiled Roof is a system that combines solar and roofing functionality into a perfect energy production system without compromising the visual appearance of your home. The building-integrated modules for tiled roofs interlock with nearly all concrete and clay tiles, leaving your home as beautiful as it ever was. Solar Tiled Roof is for homeowners looking to harness solar energy in an aesthetically pleasing way.

### What are SunTegra tiles in-roof solar panels?

SunTegra Tiles are in-roof solar panels that integrate directly into the sloped roof of a home, commercial building, or carport. SunTegra Tiles and accessories offer the perfect combination of aesthetics, performance, and value when used with standard Tiles roofing systems.

### Can Solarstone® be installed on a sloped roof?

Solarstone® solar modules can be installed on all types of sloped roofs with a minimum angle of 18 degrees. This is necessary to ensure water-tightness of the installation. Solarstone® says goodbye to costly mounting systems.

### What is a dual solar roof?

A dual solar roof, such as SunTegra Tiles, functions both as a solar panel that generates electricity and a roofing material that protects your home or building. This dual functionality offers enhanced property resale value and added roof savings because roofing shingles and tiles are not required underneath the solar system.

### Are solar roof tiles a good choice?

Solar roof tiles and slates have been available for a long time. Some of the first installations completed at Joju Solar 10 years ago were solar tiles. While we got off to a good start with the solar slates they haven't been massively

successful due to their higher cost and lower efficiencies.

What is a goodwe solar roof tile?

The GoodWe Sunshine Series is an integrated solar roof tile solution for pitched rooftops to replace traditional solar panels and framework for a sleek, aesthetically-pleasing result, that also maximises your rooftop space for more solar production. The integrated tempered double-glass structure ensures the safety of the roof structure.
