Overview

Will Slovenia's first Gigafactory create 100 jobs?

Photo: Vesna Pušnik Brezovnik/STA Battery maker TAB Mežica plans to open Slovenia's first gigafactory for the production of battery storage systems in the northern town of Prevalje in 2024. The €18 million investment is expected to create up to 100 jobs.

Where are tab batteries made?

All battery machines are 100% developed and manufactured in Europe. Since 2022, the company has been part of the EuBatIn IPCEI funding program. TAB stands for durable, powerful and innovative batteries for industrial and automotive sectors.

Will Tesla megapacks support 70 percent of Slovenia's energy grid?

A Tesla-powered Slovenian energy company has just launched its third-and largest-Megapack project to date, helping support 70 percent of the country's energy grid. Slovenia's NGEN first started utilizing Tesla Megapacks for energy storage and grid stabilization in 2019.

How many Tesla Powerpacks are there in the Balkin Peninsula?

The country became the first in the Balkin Peninsula to install a grid-scale battery storage unit with the implementation of 126 Tesla Powerpacks capable of a 22.2 MWh capacity. It was the first project NGEN launched using Tesla Megapacks. In 2020, NGEN upped the ante by installing an even larger project.
