

SolarInnovate Energy Solutions

Solar Industrial Lighting System

Modular design,
unlimited combinations in parallel
BUILT-IN DUAL FIRE PROTECTION MODULE

Overview

What is a solar powered domestic lighting system?

Solar Powered Domestic Lighting System The aim of this project is to design a solar-based home appliances system. Components used in this project are led light for glowing when a user requires light, a solar panel that traps the light from the sun and converts it into electrical energy.

What are the applications of solar LED lighting?

Applications include Solar LED Street Lighting, Solar LED Parking Lot Lighting, Solar LED Sign Lighting, Solar LED Billboard Lighting, Solar LED Bollard Lights, Solar LED Wall Lights, Solar LED Post Top Lights and more. Solar Powered LED Lighting Systems come complete to run the specified solar light fixture.

Who provides commercial LED solar lights?

Our team provides commercial LED solar lights and systems that deliver the design, control, security, LED fixtures, cost savings, and renewable solar power you need for your applications. To learn more about the various LED solar lighting systems we offer at SEPCO, give us a call today at 772.220.6615 or complete our online form to request a quote.

What is a solar home lighting system?

Some of the most common applications are: Indoor Lighting – The primary application of solar home lighting systems is powering indoor lighting. The battery used in the solar lighting system can power CFL and LED lamps. A Solar lighting system with a high-capacity battery can easily light 9-watt lamps or bulbs for extended periods.

What is solar powered LED lighting?

Solar Powered LED Lighting Systems are an efficient means to provide lighting without the need for standard utility power. Every system provides cost savings by eliminating the need to trench standard electric wires for

installation or in areas where existing utility lines do not exist.

What are the components of a solar powered LED lighting system?

Solar Powered LED Lighting Systems by Neptun include all of the necessary components for a complete, quick and hassle-free installation, including: High-efficiency solar panels, Solar panel mounting hardware, Batteries & Charge controllers, LED light fixtures. System kits allow you to have a turn-key solution for quick and easy installation.
