# Solar power system for cabin in Bangladesh

## Overview

---

How many solar home systems are installed in Bangladesh?

As of May 2017, over 4 million solar home systems had been installed, impacting more than 12 percent of the entire Bangladeshi population. The Solar Home Systems (SHS) initiative began in January 2003 and was facilitated by the government-owned Infrastructure Development Company Limited (IDCOL).

Why is solar power important in Bangladesh?

The focus was on providing basic electricity coverage to improve the life of rural regions and low-income households in Bangladesh. As of May 2017, over 4 million solar home systems had been installed, impacting more than 12 percent of the entire Bangladeshi population.

How did solar power impact Bangladesh?

By harnessing solar power, the program enabled 20 million Bangladeshis to access electricity. The book, "Living in the Light- The Bangladesh Solar Home System Story", launched today, documents how off-grid solar electrification was mainstreamed to a large segment of the population living in rural areas.

Is Bangladesh a good candidate for solar energy?

A Historical Perspective Bangladesh's foray into solar energy dates back to the 1980s, propelled by the visionary efforts of academic institutions and governmental bodies. The country's strategic location, blessed with abundant solar radiation, rendered it an ideal candidate for solar energy utilization.

What is Solar Home Systems (SHS)?

The Solar Home Systems (SHS) initiative began in January 2003 and was facilitated by the government-owned Infrastructure Development Company Limited (IDCOL). The aim was to “fulfil basic electricity requirement of the off-grid rural people of Bangladesh”.

Is Bangladesh ready for off-grid electrification?

With 62% of its population lacking access to the conventional power grid, Bangladesh has boldly embarked on a transformative journey towards off-grid electrification. At the heart of this initiative lies the Infrastructure Development Company Ltd. (IDCOL), a driving force behind surpassing installation targets and mobilizing substantial funding.
