Sophia Industrial Grade Uninterruptible Power Supply

Overview

What is an uninterruptible power supply (UPS)?

Uninterruptible Power Supplies (UPS) protect critical equipment and facilities from being exposed to mains power failures, brownouts, voltage spikes and frequency deviations. Static UPS for Commercial and Industrial applications from 850VA to 5MVA in a single unit. Single units can be paralleled up to 20MVA of UPS power.

What are the different types of industrial UPS power supply systems?

600V, 480V, 415V, 400V, 380V, 230V and 208V With the latest sophisticated features installed, we can ensure higher levels of efficiency and load protection from multiple issues pertaining to power. At the same time, we assure cost-effectiveness in our industrial UPS power supply systems to safeguard your investments in these critical systems.

What is an industrial UPS system?

The industrial UPS systems produced by SCU, a professional UPS supplier, are specially designed for industrial application with high performance, high efficiency and high protection level. The industrial UPS system provides uninterrupted high-quality industrial uninterruptible power supply for modern manufacturing.

Why should you choose SCU power supply for industrial use?

SCU provides industrial uninterruptible power supply for modern manufacturing. With super power grid adaptability and load capacity, higher protection level and multiple operation modes, our UPS for industrial use can guarantee the power quality of key loads. Contact SCU now!.

Who won the bid for the construction of ups power supply project?

Open bidding for the construction of UPS power supply project in the new factory area of CanSemi Company, Sicon won the bid with its professional and

dedicated technology and service. SCU provides industrial uninterruptible power supply for modern manufacturing.

Why is SICON industrial ups favored by SMIC?

The increasing number of electronic equipment is increasingly demanding the power grid. Sicon industrial UPS has super load capacity, higher protection level and multiple operation modes, and is more sturdy and durable. It is favored and recognized by SMIC. Since 2012, the two parties have established long-term cooperation.
