

SolarInnovate Energy Solutions

St George Photovoltaic Tile Solution

Overview

What is a goodwe solar roof tile?

The GoodWe Sunshine Series is an integrated solar roof tile solution for pitched rooftops to replace traditional solar panels and framework for a sleek, aesthetically-pleasing result, that also maximises your rooftop space for more solar production. The integrated tempered double-glass structure ensures the safety of the roof structure.

What are Photovoltaic tiles?

Thanks to their elegant appearance, the absence of an aluminium frame and their sturdiness, Photovoltaic Tiles are designed for architectural integration (BIPV), replacing or integrating traditional roofs. The double laminated safety glass makes it possible to walk on Photovoltaic Tiles, which form an indestructible roof.

Does Saint-Gobain offer building integrated photovoltaics?

At Saint-Gobain we want to help our customers to decarbonize their buildings. This is why we offer, with specific partners, Building Integrated Photovoltaics (BIPV) solutions, turning the façade to a source of energy. BIPV panels are designed solar modules that replace conventional façade coverings and are integrated in the building skin.

Who installs solar panels in St George-Brant County?

PV Technical Services, based in St. George-Brant County, Ont., has been installing traditional solar panels for more than a decade. Co-founder Katherine Zhou said customers started asking why they had to hire one contractor to re-roof their home first and another to install the . What is BIPV?

.

Who is PV Tech?

PV Tech is committed to researching and developing advanced solar PV technology seamlessly integrated into roofing materials. Our focus is on providing efficient, reliable, and cost-effective solar shingle roofing solutions for high-end clients, including custom home builders, building developers, and architects.

Can you walk on Photovoltaic tiles?

The double laminated safety glass makes it possible to walk on Photovoltaic Tiles, which form an indestructible roof. Slides, brackets and drains integrate on the back, make the Tiles easy and quick to install, with the guarantee of being watertight. The colour of the rear glass can be customised according to the project.

St George Photovoltaic Tile Solution

Ardosolar Photovoltaic Tile , The Tile with Integrated Photovoltaic

A photovoltaic system is defined as integrated (BIPV - Building-Integrated Photovoltaic) when the modules replace all or part of the roof while maintaining the original inclination and structure. ...
