Swiss Energy Storage Project BESS

Overview

Intilion will install a 65MWh battery energy storage system (BESS) in Kappel in the canton of Solothurn. Construction will begin in spring 2025. Will Intilion build a Bess in Switzerland?

German energy storage provider Intilion has agreed to build a stand-alone BESS of around 65 MWh for Swiss company Primeo Energie. Construction is expected to begin in spring 2025. When it is completed, it will be one of the largest BESS in Switzerland.

When will Bess be built in Switzerland?

Construction is expected to begin in spring 2025. When it is completed, it will be one of the largest BESS in Switzerland. According to Jan Baumann, Project Manager Energy & Grid Management at Primeo Energie, the system “will be used to compensate for weather-related fluctuations in the area’s rapidly growing renewable electricity production.

Where in Switzerland will Primeo energy install a battery storage system?

In Kappel, in the canton of Solothurn, we will install one of the largest battery storage systems in Switzerland with a total capacity of 65 megawatt hours. Primeo Energie will use the stand-alone storage system to make energy more flexible and store electricity temporarily and withdraw it again when it is needed.

How will a large-scale storage system help the Swiss power grid?

In this way, the system will help to stabilise the Swiss power grid. With this large-scale storage system, we are making a decisive contribution to the implementation of Switzerland’s Energy Strategy 2050, which aims to convert 100 per cent of its energy supply to renewable energies by 2050.

How will Primeo energy contribute to the Swiss energy transition?

We are delighted to be taking a significant step in the Swiss energy transition

together with Primeo Energie. In Kappel, in the canton of Solothurn, we will install one of the largest battery storage systems in Switzerland with a total capacity of 65 megawatt hours.

Is Bess a multi-market optimi-sation?

corroborating the business model of multi-market optimi-sation for BESS in Continental Europe. In Germany, Aquila Clean Energy is developing a large portfolio of battery storage projects consisting of 45 – 85 MW projects with two-hour storage duration, markin

Swiss Energy Storage Project BESS

Data centre with 500MW 'non-flammable' battery in Switzerland

Sep 24, 2024 · The firm's claims about it being the largest battery storage project in the world is clearly fanciful. The Moss Landing battery energy storage system (BESS) in California, US, is ...

Alpiq continues to invest in flexibility and acquires a 100 MW ...

Nov 25, 2024 · Lausanne - Alpiq is strengthening its position as a provider of flexibility to the energy system with the acquisition of Harmony Energy France's battery project in the ...

Private funding puts Switzerland's largest grid-stabilising

Nov 2, 2020 · Switzerland's largest battery storage system has gone into action stabilising the electricity network for transmission grid operator Swissgrid, asset operator Alpiq has said. ...
