# **Taipei Telecom Company 5G Base Station**

## Overview

---

How many 5G base stations are there in Taiwan?

The carrier currently operates a total of 8,000 5G base stations, with plans to expand this figure to 10,000 by the end of the year, according to the sources. The operator was the first telco in Taiwan to receive a license for 5G services from the National Communications Commission (NCC).

Will 5G cover 90 percent of Taiwan's population?

The Taipei Times reports that Asia Pacific Telecom Co. said it expects its 5G network to cover 90 percent of Taiwan's population by the end of this year, as its 5G base station number reaches 9,500 units by sharing infrastructure with Far EasTone Telecommunications Co.

Does Taiwan have a 5G network?

In March, Taiwan's National Communications Commission (NCC) gave conditional approval for Asia Pacific Telecom to share Far EasTone Telecommunications' 5G frequencies using its own 5G network. In September 2020, FET and APT had announced a partnership to provide 5G services on Taiwan's 3.5 GHz frequency band.

How many 5G base stations will Chunghwa Telecom have?

Chunghwa Telecom Co (CHT, 中華電信) yesterday said that it is accelerating its 5G network deployment to widen its service coverage and aims to install 12,000 5G base stations by the end of this year, compared with more than 10,000 currently.

Who is the leading 5G provider in Taiwan?

According to the Digitimes report, Chunghwa Telecom (CHT) currently leads the Taiwanese 5G market, with nearly 1 million subscribers. The operator is expected to reach 2 million 5G customers by the end of the year.

How much money has the government budgeted for a 5G base station?

The government has budgeted about NT\$15.5 billion (US\$548.5 million) to subsidize telecoms for the building of 5G base stations, with the aim of raising service coverage to 85 percent in two-and-a-half years, the National Communications Commission (NCC) said yesterday.
