

SolarInnovate Energy Solutions

Tunisia s first batch of new energy storage projects

Overview

How many solar projects are in Tunisia?

Tunisia's Minister of Industry, Mines and Energy, Fatima Al-Thabat Shibb, has approved four solar projects with a combined capacity of 500 MW. France-based Qair International will build a 100 MW facility in the Kasr region of Gafsa province and a 200 MW project in the Al-Khabna region of Sidi Bouzid Governorate.

Is Tunisia ready for a large-scale solar project?

It previously completed a 500 MW solar tender in December 2019. In October 2024, Tunisia launched a new tender for 200 MW of large-scale solar, with submissions due by Jan. 15, 2025. Tunisia's total solar capacity reached 506 MW by the end of 2023, according to the International Renewable Energy Agency (IRENA).

When will Tunisia get 200 MW of solar?

In October 2024, Tunisia launched a new tender for 200 MW of large-scale solar, with submissions due by Jan. 15, 2025. Tunisia's total solar capacity reached 506 MW by the end of 2023, according to the International Renewable Energy Agency (IRENA). This content is protected by copyright and may not be reused.

How is Tunisia advancing utility-scale solar?

Tunisia is advancing utility-scale solar through a series of tenders, including the latest procurement round launched in January 2023. It previously completed a 500 MW solar tender in December 2019. In October 2024, Tunisia launched a new tender for 200 MW of large-scale solar, with submissions due by Jan. 15, 2025.

Can Tunisia save \$200 million by reducing natural gas use?

The Tunisian government last year approved a plan to develop 1,700 MW of

renewables capacity by 2027, looking to save \$200 million annually by reducing use of natural gas. Tunisia, mostly dependent on gas-fired power, aims to generate 35% of its electricity from renewable sources by 2030. (\$1 = 3.1063 Tunisian dinars).

How much is a solar farm worth in Tunisia?

TUNIS, March 24 (Reuters) - Tunisia granted licenses to four international firms to build solar farms with a total capacity of 500 megawatts, together worth 1.2 billion dinars (\$386.31 million), the energy ministry said on Monday.

Tunisia s first batch of new energy storage projects

Deploying Battery Energy Storage Solutions in Tunisia

Nov 21, 2023 · ed their renewable energy potential, such as Tunisia. The objective of this report is to look into the potential of Battery Energy Storage System (BESS) development in Tunisia, in ...

Tunisia taps four international firms to build 500 MW of solar projects

Mar 25, 2025 · The projects are the first to be awarded in Tunisia's international tender for renewable energy projects with a total capacity of 1,700 MW. The Tunisian government last ...

Tunisia Looking For 400MW Battery Energy Storage System

...

Mar 26, 2025 · Battery Energy Storage System (BESS) Tunisia's Minister of Industry, Mines and Energy, Fatima Al-Thabat Shibb, has approved four solar projects with a combined capacity of ...

Tunisia: Prime Ministry publishes details of first batch of projects

Jan 20, 2025 · Tunisia - The Prime Ministry released on Saturday evening a summary of the first batch of seven public projects for which the Major Projects Committee, at its first meeting on ...
