## Overview

---

Where can offshore wind power be developed in Turkey?

The most suitable locations for offshore wind energy development in Turkey are Bozcaada, Bandirma, Gokceada, Inebolu, and Samandag. The offshore wind power potential at these sites is estimated to be 1629 MW. For 55 coastal regions where the nearshore meteorological stations are available in Turkey.

Who is the market leader in wind energy in Türkiye?

The subsidiary Nordex Enerji A.S. Türkiye became the market leader in the wind industry in 2017 and continues to hold this position. There is high potential for the use of wind energy in Türkiye given that the mountain ranges in central Türkiye and especially the western coastal region offer consistently good wind speeds.

Who makes Nordex wind turbines in Türkiye?

As one of the world's largest wind turbine manufacturers, the Nordex Group has been active in Türkiye since the year 2009.

Does Nordex Enerji offer a wind turbine technical training program?

As a tradition, Nordex Enerji A.Ş. organizes a wind turbine technical training program for female engineer and technician candidates every year to boost women's employment in the wind power industry.
