

**SolarInnovate Energy Solutions**

# **USA New York household energy storage power supply manufacturer**

## Overview

---

What is the New York battery & energy storage technology consortium?

The New York Battery and Energy Storage Technology (NY-BEST™) Consortium, established in 2010, serves as an expert resource for energy storage-related companies and organizations looking to grow their business in New York State.

Who is power Edison?

Power Edison is an entrepreneurial company based in the greater New York area with experience in technologies, financing, and business models for mobile energy storage systems. Power Edison is focused on direct engagement of utilities and their customers to maximize utilization of mobile T&D storage systems.

Who is as Power USA?

ASPOWER is committed to nurturing talent, bridging gaps, and driving excellence that empowers industries and accelerates progress. AS Power USA is a leading innovator in the power supply (PSU) and energy industry, we specialize in delivering reliable, efficient, and sustainable solutions that power industries and individuals worldwide.

What is energy storage?

Energy Storage forms part of the Energy industry, which is the 16th most popular industry and market group. If you're interested in the Energy market, also check out the top Energy & Cleantech, Renewable Energy, Energy Efficiency, Recycling or Oil & Gas companies. We are electrifying heavy industry with zero-carbon heat and power.

Who is aspower?

We are dedicated to designing, manufacturing, and distributing advanced power technologies that drive innovation and efficiency across industries. With

a rich history that began as Honoto in 1996 and evolved into ASPOWER through strategic acquisitions in 2011, we have established ourselves as a trusted leader in the power supply sector.

Why do energy storage systems matter?

Energy storage systems enable a smarter and more resilient grid infrastructure through peak demand management, increased integration of renewable energy and through a myriad of additional applications. However, grid challenges are dynamic, appearing at different times and locations over the years.
