Ukraine energy storage photovoltaic construction conditions

Overview

How much solar power does Ukraine have in 2024?

Figures from the Solar Energy Association of Ukraine (SEAU) earlier this year showed that the country added around 850MW of solar PV capacity in 2024, the majority of which came from self-consumption systems installed by businesses. It's "become a trend", Semenyshyn says.

Can solar power plants help Ukrainian society?

"Solar power plants can help Ukrainian society," Sokolovskyi says, by giving energy independence to private citizens and businesses. Moreover, support for critical infrastructure like hospitals, clinics and schools – the kind of work Semenyshyn's Repower Ukraine does – often comes from PV and energy storage combined.

Why are Ukrainian businesses turning to self-consumption solar PV systems?

Following three years of bombardments and damage to its energy infrastructure, Ukrainian businesses are turning to self-consumption solar PV systems to keep the lights on.

How many solar power plants are in Ukraine?

According to the Solar Energy Association of Ukraine, 62 industrial solar power plants with a total installed capacity of more than 950 MW are now in the occupied territories. This needs to consider a significant number of small domestic PVPPs (with a capacity of up to 30 kW).

Why is solar energy important in Ukraine?

Despite only actively developing over the past decade, solar energy accounts for over 5% of Ukraine's total electricity generation, ranking it 8th in Europe for installed PV capacity. The war in Ukraine has further underscored the importance of solar energy for the country's energy security and resilience.

How does the war in Ukraine affect PV & storage?

The ongoing war in Ukraine has been a catalyst for PV and storage deployment. Image: Oleg Ivanov via Unsplash. When the shelling gets worse, sales of renewable energy systems increase; when it eases, demand subsides until the shelling starts again. “It’s pretty funny,” says Artem Semenyshyn, board member at RePower Ukraine Charitable Foundation.
