# Uninterruptible power supply equipment for Skopje Electric Power

## Overview

---

What is uninterruptible power supply?

An uninterruptible power supply or UPS serves as a temporary power source and protection device for electrical equipment in the case of power fluctuations or interruptions. We offer customers a full range of UPS options for computers, servers, data centers, and other vital electrical systems.

What is a ups power supply & how does it work?

Our UPS power supply provides protection from power surges, load shedding and unpredictable weather conditions. Uninterruptible Power Supply (UPS) ensures its internal battery gets constantly charged from mains power and delivers a steady, consistent electricity flow to any equipment or appliance plugged into it.

Does Schneider Electric provide a ups power supply?

Schneider Electric provides a UPS power supply for homes, data centers and industrial environments. Our UPS power supply provides protection from power surges, load shedding and unpredictable weather conditions.

What is ups power protection?

First class power protection for critical infrastructure. Highly efficient 160 -1125kVA -480V and 160 -1000kVA 400V 3 phase UPS power protection that seamlessly integrates into medium data centers, industrial or facilities applications. Trusted partner for your business continuity
