# **Vatican Energy Storage Photovoltaic Box Substation Model**

## Overview

---

Will a Vatican Radio station be installed in 2025?

The future installation would be projected to “ensure, not only the power supply of the radio station existing there, but also the complete energy support of Vatican City State,” he wrote. Fast forward to 2025, and the project is completed.

Does Vatican City have solar power?

Yes. Vatican City has joined Albania, Bhutan, Nepal, Paraguay, Iceland, Ethiopia and the Democratic Republic of Congo to become one of just eight countries in the world to generate 100% of its electricity from renewable sources. Several church organizations around the world are making the move to solar.

Can solar power power a diocese in the Philippines?

A diocese in the Philippines made national headlines when the Vatican cited its efforts as one of the best practices in harnessing the sun to power all of its parishes. The Maasin diocese was recognized as the first in the world to equip its churches with solar panels.

What does Catholic energies do?

Catholic Energies provides expertise to design, implement, and finance sustainable projects that reduce energy costs, enabling other Catholic organizations to use those savings in support of their critical ministries. It's not just the Catholic Church and the Holy See that are transitioning their parishes to renewable energy sources like solar.

What did Pope Francis say about solar power?

“Fratello sole” or “Brother Sun” was Pope Francis’ Apostolic Letter that detailed how solar power is an invitation for people around the world to make lifestyle changes to counter global warming and the “pervasive” use of fossil

fuels.

Why is Maasin Diocese installing solar panels?

The Maasin diocese was recognized as the first in the world to equip its churches with solar panels. By installing solar panels in our 42 parish churches, the diocese will try to avoid 191 metric tons of carbon dioxide emissions over the next 25 years through the generation of solar power.
