Does Venezuela have a power grid?

Venezuela holds the world's largest oil reserves as well as vast water resources to fill hydroelectric dams. It long had a state-of-the-art power grid that sold excess electricity to neighboring countries. (AP Photo/Rodrigo Abd) In this May 15, 2019 photo, the Zabala family prepares dinner at their home during a black out in Maracaibo, Venezuela.

Did Trump sabotage Venezuela's power grid?

In this May 15, 2019 photo, the Zabala family prepares dinner at their home during a black out in Maracaibo, Venezuela. Venezuela's current President Nicolás Maduro accuses the Trump administration of sabotaging the power grid in a bid to overthrow him and install a puppet government led by opposition politician Juan Guaidó.
