# Where to buy good outdoor power supply in Lima

## Overview

---

What is the electricity supply in Peru?

The electricity supply in Peru is 220 volts and 60 Hertz. If you need to use a 110-volt appliance in Peru, you must use an adapter, although you should remember that in the case of laptops and digital cameras, most modern devices are dual voltage, and will take both 110 and 220 volts.

How many types of power outlets are there in Peru?

They are labeled accordingly. In Peru there are three types of power outlets. They accept three types of plug: two-pronged plugs with flat, parallel blades; plugs with two round prongs; and plugs with two flat prongs and one round prong. It is also common to find power outlets that accept more than one of these plug types.

Do you need a plug adapter for a laptop in Peru?

If you need to use a 110-volt appliance in Peru, you must use an adapter, although you should remember that in the case of laptops and digital cameras, most modern devices are dual voltage, and will take both 110 and 220 volts. This means that if your Peru travel plans include packing a laptop, you'll probably only need a plug adaptor.

Should you buy a surge protector when traveling in Peru?

Another problem to bear in mind when traveling in Peru is the possibility of power surges. If you are planning to travel in Peru for an extended period, you should certainly buy a surge protector to prevent potential damage to your laptop or other electronic devices.

Are there power outages in Peru?

Power outages can occur frequently in Peru, both in the capital and in cities and towns throughout the country. Be prepared for the possibility of suddenly finding yourself with no electricity, and therefore without an internet

connection. Another problem to bear in mind when traveling in Peru is the possibility of power surges.

What are the best models to buy in Peru?

The best models to buy are those with a surge protector. Power outages can occur frequently in Peru, both in the capital and in cities and towns throughout the country. Be prepared for the possibility of suddenly finding yourself with no electricity, and therefore without an internet connection.
