# Which Chinese telecommunications company has the most base stations

## Overview

---

China Mobile claimed its 5G base station count of some 2.4 million accounts for one-third of the global total, with rival China Unicom close behind with 2.2 million, C114.net reported. How many 5G base stations are there in China?

With 4.19 million 5G base stations already operational across China, the MIIT emphasized that “promoting 5G revolution and 6G innovation will be one of the priorities” for 2025, according to a report by Chinese newspaper China Daily. Chinese main operators are China Mobile, China Telecom and China Unicom.

Which telecommunications companies are positioned in the Chinese market?

Foreign companies are well positioned in the Chinese market as the leading suppliers of telecommunications products such as switches, transmission equipment, cellular equipment, and satellite equipment. For example, Motorola, Ericsson, Lucent, Nokia, and Nortel are the major.

Who makes 5G in China?

While 92 percent of 5G base stations in China had been manufactured by Chinese companies, Ericson and Nokia were the only overseas players accounting for six and two percent of base stations respectively. All companies have generated significant profits from their 5G business in China. Get notified via email when this statistic is updated.

Who are China's 5G operators?

Chinese main operators are China Mobile, China Telecom and China Unicom. In addition to its expected expansion in the 5G field, China noted that it is also set to begin trials for 10-gigabit optical networks and enhance computing power infrastructure, reflecting the growing demand for artificial intelligence (AI) technologies.

Does China have a 5G network?

Wen Ku, director-general of the China Communications Standards Association, highlighted the nation's progress in telecommunications, stating, "China has made remarkable strides in 5G infrastructure, which gives it an unparalleled edge in exploring 6G technologies."

How many 5G phone subscriptions are there in China?

China's 5G mobile phone subscriptions surpassed 1 billion by the end of November, local press reported, citing data released by the Ministry of Industry and Information Technology. The 5G subscriptions now represent 56% of all mobile lines in China, reflecting a 9.4 percentage point increase compared to the previous year.
