Winch circuit breaker factory in Brisbane

Overview

Who are Australian Certified winches?

Australian Certified Winches is an Australian owned and operated company providing winches and winching solutions for the Marine, Mining, Utilities and Construction industries. Far too often incorrect winches are designed into system because they are either readily available or they are promoted that they will "do the job".

What is a circuit breaker for a winch?

A circuit breaker for a winch is a device that protects the electrical system from overload. When power comes into the circuit, it automatically goes to each device in turn. It shuts off if it senses an overload. This protects the winch and any other devices connected to it from getting damaged in case of an electrical emergency.
